

Instalar CalDAV Outlook

1 - Efetuar o download e instalação do Outlook Caldav

- Download CalDAV

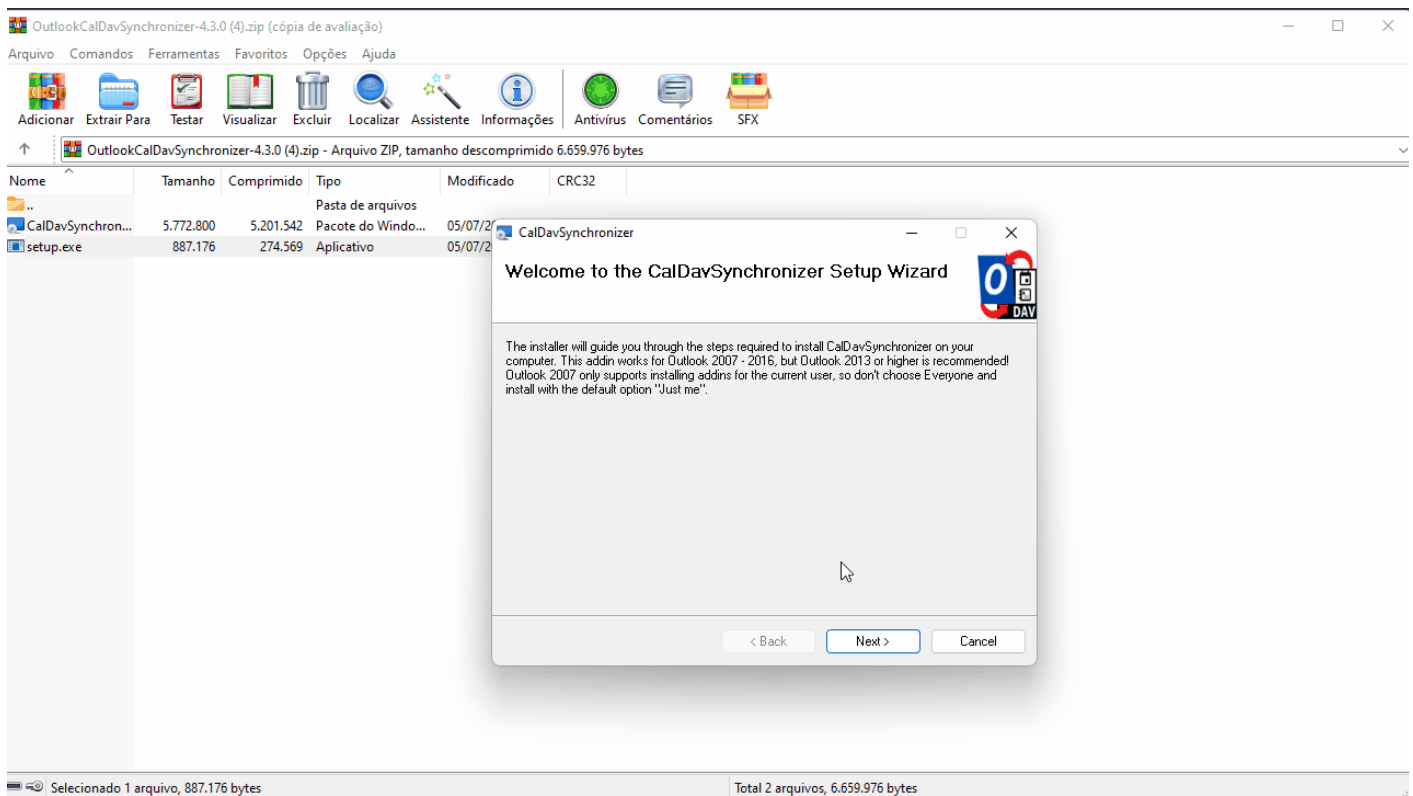

2 - Executar setup.exe dentro do arquivo .zip

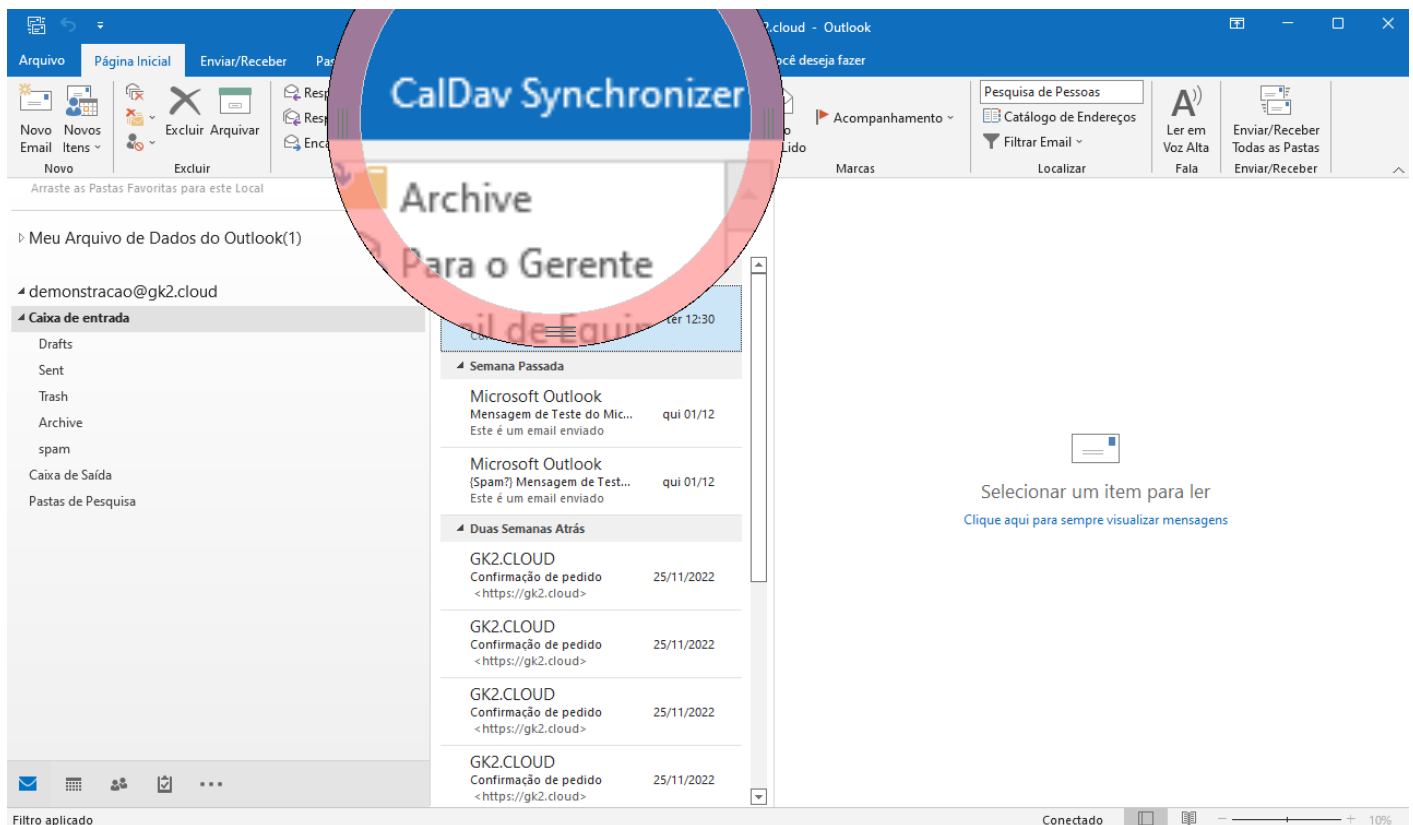

The screenshot shows the homepage of the CalDAV Outlook project. At the top, there is a navigation bar with links: Homepage, Download, Support Us, Gallery, Blog, About, Help, Enterprise, and a language selector for Deutsch. The main content area features a large blue button labeled "Download 4.3.0" with a download icon. Below this, there are two statistics: "1851276 Downloads on Sourceforge" and "849766 Downloads on Github". A small GitHub logo is visible in the bottom right corner.

Platform	Downloads
Sourceforge	1851276
Github	849766

3 - Efetuar a instalação normalmente.

4 - Abrir Outlook, terá um novo campo "CalDav Synchronider"
